GENERAL INFORMATION

APPLICATIONS FOR TELEPHONE SERVICE

Applications for service, rates, changes in service, directory listings, directory advertising or other information, may be made by telephone, by mail, or in person to the Company's Business Office.

ACCOUNTS FOR SERVICE

Accounts are rendered monthly and are payable when rendered. Each subscriber's account shows charges for local service for one month beginning with date of bill, and Long Distance and Directory Advertising charges, if any, for one month preceding.

SERVICE DIFFICULTIES

Our aim is to render service that will be satisfactory to our customers. We realize that diffi-culties will occur despite all our efforts to avoid them. If at any time difficulties are not promptly corrected or unsatisfactory conditions persist, we will appreciate your communicating the facts to the Manager.

IDENTIFICATION OF EMPLOYEES

All employees of the Company whose duties require them to enter the premises of subscribers or others, are required to wear a badge similar to the accompanying illustration or to produce a card of identification from the Manager. Any person claiming to be an employee of the Company who is without this card or badge should be refused admission, and the Manager be notified at once by telephone.

INTERFERENCE WITH APPARATUS

A Subscriber is not allowed to remove or otherwise interfere with the wire connections or parts of any telephone apparatus leased from this Company, or make attachments thereto.

DIRECTORIES

Please check your listing and if it is incorrect in any way call the Business Office at once.

The Telephone Company assumes no liability on account of errors in or omissions from its directories. Telephone directories are and remain the property of the Company. They are printed for the exclusive use of the Company's patrons and are loaned to its subscribers. All persons are cautioned against reproducing their contents.

Subscribers must not use any binder, holder, or other attachments, except as provided by the Company.

MAGNETO RURAL PARTY LINE INSTRUCTIONS

Always listen before ringing, to ascertain if the line is in use and thus avoid interrupting a

Always listen before ringing, to ascertain if the line is in use and thus avoid interrupting a conversation that may be in progress.

Before calling a subscriber on your line make sure of his number by consulting the directory, then ring, being careful to make the signal distinct. The signal to give is indicated by the number following the letter "r". The first figure following the letter "r" represents the number of long rings, and the second figure, the number of short rings. For example, to call -r-24, give two long followed by four short rings. Do not press the push-button on your instrument when calling a subscriber on your line.

To call a subscriber on another line, signal the operator and give her the number. To signal the operator, press push-button while ringing.

When conversation is finished, replace receiver and give one quick ring-off. Do not press push-button while ringing off.

button while ringing off.

Conversation should not exceed five minutes' duration. Bear in mind that while you are using the line other subscribers are unable to do so.

PUBLIC NOTICE

This Company's tariffs are open to public inspection. The Exchange Tariff may be seen on application to the Manager at the Company's Business Office. Long Distance Toll Tariffs may be seen on application at the Head Office of the Company, in the City of Montreal, Que., or to the Company's Manager at the toll centre of any locality, the name of which toll centre will be furnished by the Manager of the Local Exchange.

The following are the toll centres for the district covered by this directory-

BELLEVILLE PETERBORO

winnipeg, Man	0.43	1,05	7.00	2.00	Windsor	1.00	.00	2.00	1.25

†A different rate applies to certain central offices.

On calls for which the charge is 20 cents or more, a Dominion Government tax of 6 per cent applies (not exceeding 25 cents for any one call).

"ANYONE" (STATION-TO-STATION) CALLS

When you give "Long Distance" the number you are calling and tell her "Anyone there will do," you are making what is known as an "Anyone" (or Station-to-Station) call.

Low Night rates are in effect from 7 p.m. to 4.30 a.m. weekdays and all day Sunday, except to nearby points.

PERSON-TO-PERSON SERVICE

When you specify an individual to whom you must speak (a Person-to-Person call) the rate is somewhat higher than for an "Anyone" (Station-to-Station) call, because Person-to-Person calls require more operating time. If the particular person is not available when you first place the call, the operator will make subsequent attempts to complete it.

Low Night rates are in effect from 7 p.m. to 4.30 a.m., weekdays and all day Sunday, except to nearby points.

A small report charge is made in connection with certain "Person-to-Person" and collect "Anyone" (Station-to-Station) calls which cannot be completed.

HOW TO USE THE DIAL TELEPHONE

The best use of your dial telephone will be obtained if you will apply the following instructions carefully.

BEFORE YOU DIAL

1. OBTAIN CORRECT NUMBER FROM DIRECTORY
If listing is not found, dial "OPERATOR".

2. LISTEN FOR DIAL TONE

This is a steady humming sound which indicates the equipment is ready to receive your call. If you do not hear it after waiting a few seconds, hang up and try again a little later.

WHEN YOU DIAL

- 1. KEEP THE RECEIVER OFF THE HOOK
- 2. DIAL CAREFULLY EACH FIGURE OF THE NUM-BER IN TURN

Place your finger in correct opening and rotate the dial around until your finger strikes the stop.

Remove your finger and allow dial to spin back by itself WITHOUT TOUCHING IT

For example, to dial 2653, first dial the figure "2", as explained above, next dial the figure "6" in the same way, followed by the figure "5" and the figure "3" in turn.

If your finger slips, or you make a mistake, hang up for a few seconds, listen for dial tone and then begin again.

AFTER YOU DIAL

1. LISTEN FOR SIGNALS

Ringing-a soft intermittent bur-r-r indicating the called telephone is being rung.

Busy-a rapid buzz-buzz-buzz, indicating the called telephone, or line, is busy and that you should hang up and try again later. (See also instructions under "Party Line Subscribers").

2. WAIT FOR CALLED PARTY TO ANSWER

Failure to wait a sufficient time is the cause of many ineffective calls. Give the person you call time to reach his telephone.

3. WHEN YOU TALK

Speak distinctly in your natural tone of voice with your lips about one-half inch from the mouthpiece.

4. REPLACE THE RECEIVER

Failure to do so at the termination of your call will make all telephones on both your own and the called line busy to incoming calls. In addition, it will prevent them from making any calls while this condition continues.

PARTY LINE SUBSCRIBERS

It is particularly important that you listen before starting to dial as someone else may be using the line. If the line is in use, hang up and call later. If you do not hear either the dial tone or a conversation, ask if the line is in use.

To call another party on your line, dial the listed number shown in the directory. After you have dialed the complete number, the busy signal will be heard. Hang up the receiver at once and both your own and the called party's bell will ring. When ringing stops, it indicates the attention and the called party's bell will ring. it indicates the other party has answered. Remove your own receiver promptly and talk. If the other party does not answer, remove your own receiver for a moment to stop ringing. In some cases you will hear a one-ring code while in others you will hear the ringing code of the called telephone.

It is IMPORTANT that party-line users lift the receiver

only to make or answer their own calls.

UNCOMPLETED CALLS

When, for any reason, you do not obtain a connection (for example, when the called line is busy or does not answer) try to call again after a reasonable interval. If neither the ringing nor busy signal is heard, hang up your receiver, consult directory for correct number, then dial again. If several attempts fail, dial "OPERATOR" and explain the circumstances to her.

VALUE BEYOND PRICE

Is there anything that offers such unique value as the telephone?

Some people prize telephone service chiefly because it makes the outside world accessible. They may wish to talk only to those within their immediate circle, yet they like to know that they may call anyone, anywhere, if necessary.

Other users value their telephone largely for its emergency worth. Whatever sudden need arises, the telephone is there to meet it, to help often to save—the situation.

HOW TO USE THE DIAL TELEPHONE

The best use of your dial telephone will be obtained if you will apply the following instructions carefully.

BEFORE YOU DIAL

OBTAIN CORRECT NUMBER FROM DIRECTORY
If listing is not found, dial "OPERATOR".

2. LISTEN FOR DIAL TONE
This is a steady humming sound which indicates the equipment is ready to receive your call. If you do not hear it after waiting a few seconds, hang up and try again a little later.

WHEN YOU DIAL

1. KEEP THE RECEIVER OFF THE HOOK

2. DIAL CAREFULLY EACH FIGURE OF THE NUM-**BER IN TURN**

Place your finger in correct opening and rotate the dial around until your finger strikes the stop. Remove your finger and allow dial to spin back by itself WITHOUT TOUCHING IT

For example, to dial 265, first dial the figure "2", as explained above, next dial the figure "6" in the same way, followed by the figure "5".

If your finger slips, or you make a mistake, hang up for a few seconds, listen for dial tone and then begin again.

AFTER YOU DIAL

1. LISTEN FOR SIGNALS

Ringing-a soft intermittent bur-r-r indicating the called telephone is being rung.

Busy—a rapid buzz-buzz-buzz, indicating the called telephone, or line, is busy and that you should hang up and try again later. (See also instructions under "Party Line Subscribers").

2. WAIT FOR CALLED PARTY TO ANSWER
Failure to wait a sufficient time is the cause of many ineffective calls. Give the person you call time to reach his telephone.

3. WHEN YOU TALK

Speak distinctly in your natural tone of voice with your lips about one-half inch from the mouthpiece.

4. REPLACE THE RECEIVER

Failure to do so at the termination of your call will make all telephones on both your own and the called line busy to incoming calls. In addition, it will prevent them from making any calls while this condition continues.

PARTY LINE SUBSCRIBERS

It is particularly important that you listen before starting to dial as someone else may be using the line. If the line is in use, hang up and call later. If you do not hear either the dial tone or a conversation, ask if the line is in use.

To call another party on your line, dial the listed number shown in the directory. After you have dialed the complete number, the busy signal will be heard. the complete number, the busy signal will be lied to.

Hang up the receiver at once and both your own and the called party's bell will ring. When ringing stops, it indicates the other party has answered. Remove your own receiver promptly and talk. If the other party does not answer, remove your own receiver for a moment to stop ringing. In some cases you will hear a one-ring code while in others you will hear the ringing code of the called telephone.

It is IMPORTANT that party-line users lift the receiver only to make or answer their own calls.

UNCOMPLETED CALLS

When, for any reason, you do not obtain a connection (for example, when the called line is busy or does not answer) try to call again after a reasonable interval. If neither the ringing nor busy signal is heard, hang up your receiver, consult directory for correct number, then dial again. If several attempts fail, dial "OPERATOR" and explain the circumstances to her.

SERVICE CALLS

DIAL For Local Numbers not listed in this Directory
To Report Telephone Out-of-Order "OPERATOR" "OPERATOR" For Assistance and Emergency Calls "OPERATOR" To Call Bell Telephone Business Office. 550 For Long Distance Calls "OPERATOR"

YORK TOWNSHIP—See Agincourt in Toronto Directory

Saves miles of steps.

An Extension Telephone is a wonderful stepsaver throughout the day and doubly convenient for night calls.

Wednesday evenings —a looked-for pleasure

A pleasant arrangement exists between Bill Smart and his folks. On alternate Wednesdays, after 7.00 p.m., Bill, working in a distant city, telephones home. The following week the folks call him.

These calls have become an institution with the Smart family — personal chats that are eagerly looked forward to.

Does this not suggest something to you, particularly when "anyone" Long Distance rates are so low?

A Matter of Dollars and Cents

Builders today generally recognize the desirability of providing for adequate telephone facilities in their plans for new and remodelled homes.

By providing outlets at convenient locations, alterations may be made to existing telephone layouts without defacing walls or floors, or running exposed wiring.

Prospective builders will find it to their advantage to consult Bell Telephone engineers when making their plans. Built-in telephone conduit costs little and results in great savings.

Answer from where you are —upstairs or down!

HYSICIANS tell us there is nothing more injurious to the health than hurrying upstairs.

Many times a day, when your telephone rings, you have to go upstairs or down to answer. As a rule you hurry, fearing that the person calling will hang up before you have time to answer.

With an "extension" you don't need to go upstairs or down to answer your telephone or to call a number. It is a thoroughly worth-while convenience, a great time and labor saver, and it costs only a few cents a day.
